

Leitrim County Council Planning Report

Reference No:	ED-26-53
Applicant:	Aidan Cafferty
Location:	Drumlowan, Gortvagh Co. Leitrim N41 R899
Application Type:	Declaration under Section 5 of the Planning and Development Act 2000, as amended
Proposal:	Construction of a 45m² single storey extension to the rear of an existing dwelling to include demolition of the existing extension.
Date of Site Inspection:	24/08/2026
Due Date:	24/09/2026

Introduction

This subject request for a declaration under Section 5 of the Planning and Development Act 2000, as amended, was received by the Planning Authority on the 07 August 2026 and relates to the construction of a new extension to the rear of a single storey dwelling at Drumlowan, Gortvagh. The applicant wishes to ascertain if the proposed works are considered development and whether it is exempted development. The proposed development comprises the demolition of an existing flat roofed rear extension and the construction of a new pitched roof extension in its place.

Further Information Request

A further information letter issued to the applicant on 28 August 2026 advising as follows:

- The site layout plan and floor layout plan do not accurately depict the extent of the existing rear extension. The documentation submitted with this referral identifies the rear extension as 'pre 1964 construction'. It is unclear whether this is the case as the southwestern portion appears as a bathroom addition on foot of the 1971 planning permission for a septic tank. The southeastern portion is a more recent addition. You are requested to submit the total floor area of the existing as-built rear extension in its entirety.*
- The Planning Authority considers the proposed rear extension to be a 'new' extension as the roof and wall height are being increased. You are advised that a 45m² exemption for such extensions was recently introduced and that in order to avail of this exemption you are requested to submit plans identifying the floor area of the entirety of the rear extension as 45m² or less.*
- The extent of proposed alterations to the existing roof and walls has not been clearly detailed. The proposed front elevation identifies a greater overhang and what appears as an increase in pitch and wall height. You are requested to submit accurate drawings of the existing dwelling clearly identifying all proposed changes.*

Further Information Response

On 04 September 2026 the applicant submitted a response to the further information request. The applicant has revised the original plans and now seeks to demolish the existing flat roofed rear extension in its entirety and construct a 45m² extension in its place. The applicant has advised that the height of the existing original pitched roof of the dwelling will be maintained.

Site Location and Context

The subject site is located in the townland of Drumlowan approximately 4.5km southwest of Fenagh. The subject land contains a single storey pitched roof dwelling with septic tank and outbuildings and is served with an established vehicular access from local primary road L-3457.

The subject site is not located within a landscape designated for amenity value in the Leitrim County Development Plan 2023-2029. The land is located within Landscape Character Type 9 Drumlin Farmland which is described in the County Leitrim Landscape Character Assessment of the Leitrim County Development Plan 2023-2029 (Appendix VII) as follows:

‘The Drumlin Farmland occupies a large part of the southern part of the county and features a distinctive drumlin hill topography. The consistent orientation of the hills gives the landscape a uniform grain and has its origins from the direction of ice flows during glaciation. The pattern or grain can be difficult to appreciate, being masked largely by the abundant mature hedgerows which race up and down the hillsides forming a patchwork pattern usually of small-scale. The drumlins have steep sides with broad rounded tops although their size and shape vary considerably throughout. Land cover is generally pasture with marshy areas within the inter drumlin hollows. Patches of commercial coniferous forestry are dispersed throughout this landscape, some areas being fairly extensive in size. The plantation coniferous forest is a frequent feature and has become influential in the local landscape character.’

The nearest Natura 2000 site is Cuilcagh-Anierin Special Area of Conservation (SAC Site Code: 000584) which is located approximately 11km northwest of the subject site. The nearest nationally designated site is Annaghery Lough proposed Natural Heritage Area (pNHA Site Code: 001402) which is located approximately 7km west of the subject site.

Fig. 2 – Existing dwelling (front)

Fig. 2 – Existing rear extension

Planning History

P.1394 – in March 1971 planning permission was granted to Mr. Patrick Cafferty to “erect septic tank and pumphouse” on the subject site.

Relevant Legislation

Planning and Development Act 2000, as amended

Section 2 Interpretation

Section 2(1) of the Planning and Development Act, 2000 (as amended) provides an interpretation of 'works' as including 'any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal...'.

Section 3 Development

Section 3(1) In this Act ‘development’ means, except where the context otherwise requires, the carrying out of any works on, in, or under land or the making of any material change in the use of any structures or other land.

Section 4 Exempted Development

Section 4(1) The following shall be exempted developments for the purposes of this Act—

(h) development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures;

S.4 (2) (a) The Minister may by regulations provide for any class of development to be exempted development for the purposes of this Act where he or she is of the opinion that—

(i) by reason of the size, nature or limited effect on its surroundings, of development belonging to that class, the carrying out of such development would not offend against principles of proper planning and sustainable development, or

(ii) the development is authorised, or is required to be authorised, by or under any enactment (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation) where the enactment concerned requires there to be consultation (howsoever described) with members of the public in relation to the proposed development prior to the granting of the authorisation (howsoever described).

(b) Regulations under paragraph (a) may be subject to conditions and be of general application or apply to such area or place as may be specified in the regulations.

(c) Regulations under this subsection may, in particular and without prejudice to the generality of paragraph (a), provide, in the case of structures or other land used for a purpose of any specified class, for the use thereof for any other purpose being exempted development for the purposes of this Act.

Planning and Development Regulations 2001, as amended

Article 6(1) of the Planning and Development Regulations 2001, as amended, states that:

Subject to article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.

Article 9(1) of the Planning and Development Regulations 2001, as amended, identifies restrictions on exemptions. Of relevance in this case would be the following:

- (a) if the carrying out of such development would –*
 - (i) contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act*
 - (iii) endanger public safety by reason of traffic hazard or obstruction or road users*
 - (vi), interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.*

Class 1 of Schedule 2 Part 1 of the *Exempted Development –General* allows for the following exemption:
Description of Development:

Development within the curtilage of a house

CLASS 1 The extension of a house, by the construction or erection of an extension (including a conservatory) to the rear of the house or by the conversion for use as part of the house of any garage, store, shed or other similar structure attached to the rear or to the side of the house.

Conditions and Limitations:

- 1. (a) Where the house has not been extended previously, the floor area of any such extension shall not exceed 45 square metres.*
 - (b) Subject to paragraph (a), where the house is terraced or semi-detached, the floor area of any extension above ground level shall not exceed 12 square metres.*
 - (c) Subject to paragraph (a), where the house is detached, the floor area of any extension above ground level shall not exceed 20 square metres.*
- 2. (a) Where the house has been extended previously, the floor area of any such extension, taken together with the floor area of any previous extension or extensions constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 45 square metres.*
 - (b) Subject to paragraph (a), where the house is terraced or semi-detached and has been extended previously, the floor area of any extension above ground level taken together with the floor area of any previous extension or extensions above ground level constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 12 square metres.*
 - (c) Subject to paragraph (a), where the house is detached and has been extended previously, the floor area of any extension above ground level, taken together with the floor area of any previous extension or extensions above ground level constructed or erected after 1 October 1964, including those for which planning permission has been obtained, shall not exceed 20 square metres.*

3. Any above ground floor extension shall be a distance of not less than 2 metres from any party boundary.
4. (a) Where the rear wall of the house does not include a gable, the height of the walls of any such extension shall not exceed the height of the rear wall of the house.
(b) Where the rear wall of the house includes a gable, the height of the walls of any such extension shall not exceed the height of the side walls of the house.
(c) The height of the highest part of the roof of any such extension shall not exceed, in the case of a flat roofed extension, the height of the eaves or parapet, as may be appropriate, or, in any other case, shall not exceed the height of the highest part of the roof of the dwelling.
5. The construction or erection of any such extension to the rear of the house shall not reduce the area of private open space, reserved exclusively for the use of the occupants of the house, to the rear of the house to less than 25 square metres.
6. (a) Any window proposed at ground level in any such extension shall not be less than 1 metre from the boundary it faces.
(b) Any window proposed above ground level in any such extension shall not be less than 11 metres from the boundary it faces.
(c) Where the house is detached and the floor area of the extension above ground level exceeds 12 square metres, any window proposed at above ground level shall not be less than 11 metres from the boundary it faces.
7. The roof of any extension shall not be used as a balcony or roof garden.
8. This exemption shall only be used on the principal house and not any additional detached house within the curtilage of the principal house.

Assessment

The subject dwelling extension will be located fully to the rear of the existing dwelling and comprises of a single storey addition with a floor area of 45m². This is within the condition limitations of Class 1 of Schedule 2 Part 1 of the *Exempted Development – General*. No changes are proposed to the front elevation and the overall scale and form will be maintained. The development will not have an adverse impact on the landscape and is in keeping with the character of the area. I consider that proposed development complies with the conditions and limitations of Class 1 of Schedule 2 Part 1 of the Planning and Development Regulations 2001, as amended, and the proposed development, therefore, can avail of this exemption.

Appropriate Assessment

The proposal has been assessed having regard to the requirements of the EU Habitats Directive. The development has been screened for Appropriate Assessment (AA), and it has been determined that an AA is not required. See Appropriate Assessment (AA) screening report attached.

Environmental Impact Assessment

Having regard to the limited nature and scale of the development and the fact that the development is not of a development type or class set out in Part 1 or Part 2 of Schedule 5 of the Planning and Development Regulations 2001, as amended, it is concluded that there is no real likelihood of significant effects on the environment arising from the proposed development having regard to the criteria set out in Schedule 7 to the Planning and Development Regulations 2001, as amended. It is therefore concluded that EIA is not required.

Recommendation

Having regard to the foregoing, I recommend that the Planning Authority issue the following Declaration under Section 5 of the Planning and Development Act 2000, as amended:

WHEREAS a question has arisen as to whether the construction of a 45m² single storey extension to the rear of an existing dwelling to include demolition of the existing extension at Drumlowan, Gortagh County Leitrim N41 R899 is development, and if so, whether such development is or is not exempted development.

AND WHEREAS the said question was referred to Leitrim County Council by Aidan Cafferty on the 07 August 2026;

AND WHEREAS Leitrim County Council, in considering this referral, had regard particularly to –

- (a) Sections 2(1), 3(1) and 4(1) of the Planning and Development Act, 2000, as amended,
- (b) Articles 6(1) and 9(1) of the Planning and Development Regulations 2001, as amended,
- (c) Class 1 of Part 1, Schedule 2 of the Planning and Development Regulations 2001, as amended, and
- (d) the documentation and further information submitted as part of the referral;

AND WHEREAS Leitrim County Council has concluded that:

- (a) The construction of a single storey extension, with a floor area of 45m², to the rear of an existing single storey detached dwelling at Drumlowan, Gortagh, County Leitrim constitutes development within the meaning of Section 3 of the Planning and Development Act 2000 (as amended)
- (b) The construction of a single storey extension, with a floor area of 45m², to the rear of an existing single storey detached dwelling at Drumlowan, Gortagh, County Leitrim satisfies the exemption at Class 1 of Schedule 2 Part 1 of the *Exempted Development – General*
- (c) the proposed development will not materially affect the character of the area and is considered exempted development

NOW THEREFORE Leitrim County Council, in exercise of the powers conferred on it by Section 5(2)(a) of the 2000 Act, as amended, hereby declares that:

The construction of a 45m² single storey extension to the rear of an existing dwelling to include demolition of the existing extension at Drumlowan, Gortagh County Leitrim N41 R899 constitutes development which is exempted development.

Appropriate Assessment Screening and Determination

STEP 1. Description of the project/proposal and local site characteristics:

(a) File Reference No:	ED-26-53Error! Reference source not found.Error! Reference source not found.
(b) Brief description of the project or plan:	As per planning report
(c) Brief description of site characteristics:	As per planning report
(d) Relevant prescribed bodies consulted: e.g. DHLGH (NPWS), EPA, OPW	No
(e) Response to consultation:	N/A

STEP 2. Identification of relevant Natura 2000 sites using Source-Pathway-Receptor model and compilation of information on Qualifying Interests and conservation objectives.

European Site (code)	List of Qualifying Interest/Special Conservation Interest	Distance from proposed development (km)	Connections (Source- Pathway- Receptor)	Considered further in screening Y/N
Cuillcagh-Anierin Uplands SAC (000584)	https://www.npws.ie/protected-sites/sac/000584	11km	None	No
Please Select				

STEP 3. Assessment of Likely Significant Effects

(a) Identify all potential direct and indirect impacts that may have an effect on the conservation objectives of a European site, taking into account the size and scale of the project under the following headings:	
Impacts:	Possible Significance of Impacts: (duration/magnitude etc.)
Construction phase e.g. - Vegetation clearance - Demolition - Surface water runoff from soil excavation/infill/landscaping (including borrow pits) - Dust, noise, vibration - Lighting disturbance - Impact on groundwater/dewatering - Storage of excavated/construction materials - Access to site - Pests	No significant potential impacts.
Operational phase e.g. - Direct emission to air and water - Surface water runoff containing contaminant or sediment - Lighting disturbance - Noise/vibration	No significant potential impacts.

• Changes to water/groundwater due to drainage or abstraction • Presence of people, vehicles and activities • Physical presence of structures (e.g. collision risks) • Potential for accidents or incidents													
In-combination/Other	No significant potential impacts.												
(b) Describe any likely changes to the European site:													
• Examples of the type of changes to give consideration to include: • Reduction or fragmentation of habitat area • Disturbance to QI species • Habitat or species fragmentation • Reduction or fragmentation in species density • Changes in key indicators of conservation status value (water or air quality etc.) • Changes to areas of sensitivity or threats to QI • Interference with the key relationships that define the structure or ecological function of the site	No significant potential impacts.												
(c) Are 'mitigation' measures necessary to reach a conclusion that likely significant effects can be ruled out at screening? ☐ Yes ☒ No													
Step 4. Screening Determination Statement													
The assessment of significance of effects: Describe how the proposed development (alone or in-combination) is/is not likely to have significant effects on European site(s) in view of its conservation objectives.													
Having regard to the information on file, the established nature and scale of the development, its distance from European sites, the lack of direct connections with regard to the Source-Pathway-Receptor model, it is concluded that the development, either alone or in-combination with other developments, is not likely to have any significant effects on any European site in view of its conservation objectives.													
Conclusion:													
	<table border="1"> <thead> <tr> <th></th> <th>Tick as Appropriate:</th> <th>Recommendation:</th> </tr> </thead> <tbody> <tr> <td>(i) It is clear that there is no likelihood of significant effects on a European site.</td> <td>☒</td> <td>The proposal can be screened out: Appropriate assessment not required.</td> </tr> <tr> <td>(ii) It is uncertain whether the proposal will have a significant effect on a European site.</td> <td>☐</td> <td> ☐ Request further information to complete screening ☐ Request NIS ☐ Refuse planning permission </td> </tr> <tr> <td>(iii) Significant effects are likely.</td> <td>☐</td> <td> ☐ Request NIS ☐ Refuse planning permission </td> </tr> </tbody> </table>		Tick as Appropriate:	Recommendation:	(i) It is clear that there is no likelihood of significant effects on a European site.	☒	The proposal can be screened out: Appropriate assessment not required. Environmental Impact Assessment (EIA) Pre-Screening

Establishing if the proposal is a 'sub-threshold development'

File Reference No:	ED-26-53 Error! Reference source not found. Error! Reference source not found.
Development Summary:	As per Planning Report
Was a Screening Determination carried out under Section 176A-C?:	☐ Yes – No further action required ☒ No – Proceed to Part A

Part A - Schedule 5 Part 1 - Does the development comprise a project listed in Schedule 5, Part 1, of the Planning and Development Regulations 2001 (as amended)? (Tick as appropriate)

☐ Yes – specify class:	EIA is mandatory No screening required
☒ No	Proceed to Part B

Part B - Schedule 5 Part 2 - Does the development comprise a project listed in Schedule 5, Part 2, of the Planning and Development Regulations 2001 (as amended) and does it meet/exceed the thresholds? (Tick as appropriate)

☒ No, the development is not a project listed in Schedule 5, Part 2	No screening required
☐ Yes, the project is listed in Schedule 5, Part 2 and meets/exceeds the threshold, specify class (including threshold):	EIA is mandatory No screening required
☐ Yes, the project is of a type listed but is <i>sub-threshold</i> :	Proceed to Part C

Part C – If yes, has Schedule 7A information/screening report been submitted?

☐ Yes, Schedule 7A information/screening report has been submitted by the applicant	Screening Determination required
☐ No, Schedule 7A information/screening report has not been submitted by the applicant	Preliminary Examination required

EIA Preliminary Examination:

The Planning Authority shall carry out a preliminary examination of, at the least, the nature, size or location of the development.

	Comment:	Yes/No/Uncertain:
Nature of the development: <i>Is the nature of the proposed development exceptional in the context of the existing environment?</i>		

<i>Will the development result in the production of any significant waste, or result in significant emissions or pollutants?</i>		
Size of the development: Is the size of the proposed development exceptional in the context of the existing environment? Are there cumulative considerations having regard to other existing and/or permitted projects?		
Location: <i>Is the proposed development located on, in, adjoining or does it have the potential to impact on an ecologically sensitive site or location?</i> <i>Does the proposed development have the potential to affect other significant environmental sensitivities in the area?</i>		
Preliminary Examination Conclusion:		
Based on a preliminary examination of the nature, size or location of the development. (Tick as appropriate)		
☐ There is no real likelihood of significant effects on the environment. EIA is not required.	☐ There is real likelihood of significant effects on the environment. An EIAR is required.	☐ There is significant and realistic doubt regarding the likelihood of significant effects on the environment. Request the applicant to submit the Information specified in Schedule 7A for the purposes of a screening determination. Proceed to Screening Determination.
Signature of Recommending Planner:	 Date: 15/09/2026
