Notification of Upcoming Public Display No.3

Leitrim County Council, in partnership with Roscommon County Council, Transport Infrastructure Ireland and the Department of Transport are committed to developing the N4 Carrick-on-Shannon to Dromod Project. The project is a priority investment in the Government's National Development Plan 2021-2030.

The N4 national primary road, from Dublin to Sligo, is a strategic corridor which connects Dublin to the northwest and border counties. The section of the N4 under consideration passes through both rural and urban environments, is approximately 21km long and extends from Drumharlow townland west of Carrick-on-Shannon to Faulties townland east of Aghamore.

A public consultation on the feasible Alternatives and Options proposed for the project was held in Q2 2021 and significant public feedback was received. Following consideration of the public feedback and detailed appraisal, a Preferred Transport Solution has been identified.

Public Displays of the Preferred Transport Solution

The Project Team will be hosting an in-person Public Display of the Preferred Transport Solution on Wednesday 18 May 2022 from 2pm to 8pm and on Thursday 19 May 2022 from 2pm to 8pm, in The Landmark Hotel, Carrick-on-Shannon, Co. Leitrim, N41 N9W4.

Check the Details out Online:

Details of the Preferred Transport Solution will also be available on the project website www.carrickdromod.ie including information boards, maps, brochure and interactive webmap.

Public Display for 3 Weeks:

Public Display material including the maps will be available to view in Leitrim County Council Offices at Áras an Chontae, St. Georges Terrace, Carrick-on-Shannon, Co. Leitrim, N41 PF67, from Friday 20 May 2022 until Friday 10 June 2022.

What Happens Next

Following the public display, the Phase 2 (Options Selection) process will be finalised, culminating in the publication of the Option Selection Report in Q3 2022. These documents will be made available on the project website.

Subject to the receipt of the necessary approvals and funding, the project will then proceed to the next phase of the planning and design process, i.e. Phase 3 (Design & Environmental Evaluation). The purpose of this phase is to develop the design of the Preferred Transport Solution selected in Phase 2 and undertake an environmental evaluation of the design to a sufficient level of detail to establish landtake requirements and to progress the project through the statutory process.

Updates, news and details of future public displays will be published on the project website.
