

Carrick-on-Shannon

Bulletin #8

18 September 2025

Notification of Project Update

Overview:

The project previously referred to as the "N4 Carrick-on-Shannon to Dromod Project" has been formally renamed to the "N4 Carrick-on-Shannon Bypass & Traffic Management Project."

Rationale for the Change:

The new project name more accurately reflects the primary objectives of the project, which includes the development of a bypass around Carrick-on-Shannon and the implementation of traffic management and improved active travel measures within the town centre.

The original project name reflected the longer corridor between Carrick-on-Shannon and Dromod which was under investigation at an earlier phase of the project. The revised title emphasises the area around Carrick-on-Shannon as the central focus of the project for which a planning application is currently being prepared for submission to An Coimisiún Pleanála.

The progression of the N4 Carrick-on-Shannon to Dromod corridor is retained as objective TRAN OBJ 3 of Leitrim County Council's County Development Plan in accordance with the RSES, consistent with National Development Plan investment commitments.

The updated project title is intended to improve public understanding and engagement by clearly describing the nature and intent of the current project.

Next Steps:

All future communications, reports, and documentation will adopt the new project title. Stakeholders are advised to update references to the project accordingly.

The Project Website, digital platforms, and public-facing materials (including drawings, letters etc.) will reference the new project title.

All other aspects of the project remain unchanged and work on the Phase 3 Design and Environmental Evaluation stage is still progressing as planned.
